Re: CORRECTION TO 60-Day Notice of Violations and Intent to File Suit
Regarding Noncompliance with Federal Clean Water Act's Industrial Stormwater
Discharge Requirements: 120 Waverley Street, Framingham MA

Dear Mr. Applebaum:

This letter corrects the Notice Letter that was sent to you on September 24, 2014 on behalf of Clean Water Action. Since the mailing of the original Notice, Clean Water Action has learned that the zinc and copper benchmark limits applicable to Framingham Salvage's stormwater discharges are actually 0.13 mg/l and 0.0156 mg/l respectively and not 0.26 mg/l and 0.0332 mg/l as originally thought. As I have previously discussed with your attorney, this makes even more significant the company's exceedences of these benchmark limits.

This correction is being provided by:
